## DATA

### Profine® BIG Cream

Profine® BIG Cream water filter cartridge gives you:

- an excellent protection against corrosion
- reduction of carbonate hardness without changing pH level
- an extended capacity guaranteed
- a final stage of bacteriostatic microfiltration
- chlorine removal
- a food grade certificated resin for water treatment

All these features make Profine® BIG Cream ideal for use in drinking machines, coffee machines, combi-steamers.

**IDEAL FOR COFFEE.** Thanks to a multi-stage design in the exclusive formulation of a bed of specific ion exchangers, which guarantee functional autonomy keeping a favourable pH; the cartridge Profine® BIG Cream refines the water quality allowing to have the best coffee flavour and an ideal coffee foam in colour and texture.

**PROTECTION OF PLANTS.** In addition Profine® BIG Cream also gives protection to machine technology maintaining pH constant and giving an excellent protection against corrosion. It also eliminates bad tastes and odours.

**STEM DESIGN.** Thanks to the compact stem design, it is possible to connect the water circuit directly to the filter cartridge. With the integrated head the installation volume is reduced of 30% and all service action becomes easier.

**USE.** Profine® BIG Cream takes part in a group of Profine® Vending products tested and designed to meet every demand in restaurant, catering and vending sectors. It's ideal for use in drinking machines, coffee machines, combi-steamers. The cartridge must be used only with cold drinking water.

### MODELS:

BIG 2.0	Y21804B	BIG 4.5	Y21806B
BIG 3.0	Y21805B	BIG 6.0	Y21807B

## DATA

### TOP TECHNOLOGY IN 4 STAGES:

1. rough pre-filtration
2. laminated upper distributor to optimize the inlet flow
3. bed of ion high efficiency exchange resins to ensure maximum exchange capacity in reduced space
4. bacteriostatic post-filtering step to eliminate odours and flavours and chlorine compounds and ensure action against bacterial growth

### TECHNICAL SPECIFICATIONS

**Working pressure:** Min. 2 - Max 8 bar (0.2 - 0.8 Mpa)  
**Temperature:** Min. 4 - Max 30° C (39 - 86 °F)  
**IN-OUT connections:** 3/8" male

Water to be treated	Capacity according to ion-exchange resin capacity			
	BIG 2.0	BIG 3.0	BIG 4.5	BIG 6.0
Tempoary hardness				
<b>10 °Kh</b>	2000 l	3000 l	4500 l	6000 l
The exchange capacity may vary depending on water quality and flow. For more information, contact Profine.				

### INSTALLATION:

- The cartridge must be installed in vertical position.
- Installation must be done in compliance with local regulations in law.
- Use only in-out female connection 3/8".

**REPLACEMENT:** change cartridge after 12 months or when capacity is reached.

**DISPOSE THE EXHAUSTED CARTRIDGE IN COMPLIANCE WITH DECISION 2000/532/EC** (code 15 02 03 EWC).

### DIMENSIONS:

**BIG 2.0:** ø 134 mm h 285 mm  
**BIG 3.0:** ø 137 mm h 374 mm  
**BIG 4.5:** ø 167 mm h 381 mm  
**BIG 6.0:** ø 171 mm h 451 mm

### PACKAGING: box 1 piece

L x P x H: 327 x 143 x 145 mm  
 L x P x H: 403 x 143 x 145 mm
