Profine® Vending CREAM

Profine® Vending CREAM Water filter cartridge gives you:

- an excellent protection against corrosion
- reduction of carbonate hardness without changing pH level
- an extended capacity guarantee
- a final stage of bacteriostatic microfiltration
- chlorine removal
- a food grade certificated resin for water treatment

All these features make PROFINE® Vending CREAM ideal for use in drink machines, coffee machines, combi-steamers.

IDEAL FOR COFFEE. Thanks to a multi-stage design in the exclusive formulation of the bed of specific ion exchangers, which guarantees the more extended functional autonomies; the cartridge PROFINE® Vending CREAM refines the water quality allowing you to have the best coffee flavour and an ideal coffee foam in colour and texture.

PROTECTION OF PLANTS. In addition PROFINE® Vending CREAM also gives protection to your machine technology maintaining constant pH and giving an excellent protection against corrosion. It also eliminates bad tastes and odours.

STEM DESIGN. Thanks to the compact stem design, it is possible to connect the water circuit directly to the filter cartridge. Without the cartridge head the installation volume is reduced as 30% and any service action becomes easier.

USE. PROFINE® Vending CREAM takes part in a group of Profine® Vending products tested and designed to meet every demand in restaurant, catering and vending sectors. It's ideal for use in drink machines, coffee machines, combi-steamers. The cartridge must be used only with cold drinking water.
